December 14, 2020

The Honorable Mitch McConnell  The Honorable Chuck Schumer
U.S. Senate Majority Leader  U.S. Senate Democratic Leader

Dear Leaders McConnell and Schumer:

We urge you to include a four-committee, bipartisan agreement to end surprise medical billing in the year-end spending legislation.

The proposal agreed to by the U.S. Senate Committee on Health, Education, Labor and Pensions (HELP) and three U.S. House of Representatives committees will hold patients harmless from surprise medical bills and provide a fair arbitration process to resolve disputes between health care providers and insurers without undermining strong state laws to address this issue that are already on the books. This bill does not include so-called “rate setting,” nor does it include a threshold to access the arbitration process to determine out-of-network payments to health care providers.

The Bipartisan Working Group, including U.S. Senators Bill Cassidy, M.D. (R-LA), Michael Bennet (D-CO), Todd Young (R-IN), Maggie Hassan (D-NH), Lisa Murkowski (R-AK), and Tom Carper (D-DE), released a bill in May of 2019 to protect patients from surprise bills, called the STOP Surprise Medical Bills Act. Solving surprise billing has been fully vetted by the Senate HELP Committee, which reported similar legislation by a bipartisan vote of 20-3. All three House committees who support this proposal have passed comparable legislation and the bipartisan, bicameral deal enjoys the support of House Speaker Nancy Pelosi. Furthermore, the four-committee, bipartisan agreement has been greatly improved by the ongoing advocacy of the more than two dozen senators led by Senator Bill Cassidy, M.D. and Senator Maggie Hassan.

Inclusion of this agreement to end surprise medical billing will also allow approximately $18 billion in savings to be used to fully fund Community Health Centers and other crucial primary care programs for four years.

The practice of surprise medical billing needs to end. This practice has been especially damaging during COVID-19 when patients receive large unexpected bills weeks after they go to the emergency room.

There will never be a broader bipartisan, bicameral solution to ending surprise medical billing and we should deal with it now. Patients cannot wait any longer.

Sincerely,

/s/ Bill Cassidy, M.D.  /s/ Margaret Wood Hassan
